

Drug Discovery Informatics

Your Whole Project Team

Will Embrace

CDD Vault is a complete platform for drug discovery informatics, hosted through an intuitive web interface.

It helps your project team manage, analyze, and present chemical structures and biological assay data.

Molecule	Molecule WL	Dose Response Plot	PIC50	LE	LipE	clogP	Microscopy Image
CDD-1413022 	341.444		6.48	0.37	2.84	3.64	

Activity & Registration

Store and organize your data

Store, Search, Analyze, & Report

CDD Vault is a modern web application for your chemical registration, assay data management and SAR analysis. It lets you organize drug discovery data and collaborate across project teams. It is simple to use and extremely secure.

Visualization

Plot datasets and mine them

Interact, Calculate, Compare & Publish

CDD Vault is a dynamic analysis tool for drug discovery data. It lets you plot and analyze large data sets to find interesting patterns, activity hotspots and outliers. With publication quality graphics, it is easy to illustrate and share results across project teams.

Inventory

Keep track of compounds

Debit, Track & Locate

CDD Vault is an Integrated inventory system for your compounds and reagents. Stay informed of the current status of your inventory whether in-house or shared externally.

ELN

Document all your research

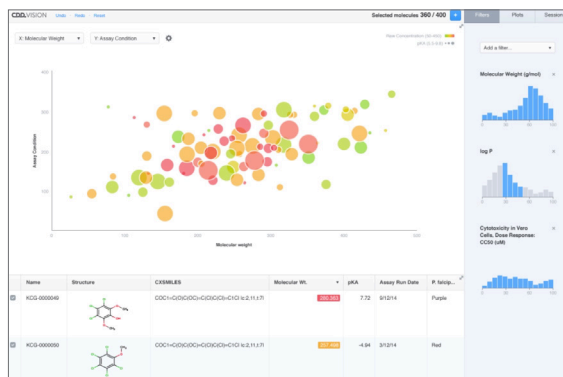

Coming Soon - Contact sales@collaborativedrug.com

CDD Vault is the ultimate electronic lab notebook, integrated directly with the chemical and biological assay data repositories and our full analysis and visualization environment. Designed for project teams, you can archive and search all of your experiments with ease and collaborate securely.

COLLABORATIVE
DRUG
DISCOVERY

Modern Drug Discovery Informatics

Collaborative

Supporting communication within organizations, partners and CRO's, and global initiatives, CDD is a pioneer in hosted R&D data management.

Innovative

CDD partners with leading academic and industrial scientists to provide cutting edge insight and technology to the research community. See our blog at <https://www.collaborativedrug.com/blog> for the latest news and publications.

Easy Onboarding

Built for drug discovery teams, the modern web interface is intuitive for beginners and powerful for experienced users. Migrate your data easily without requiring any IT expertise.

Powerful

Access all your research data from any modern web browser. Search for any experiment or explore your results in SAR tables and plots. Filter, color code, and highlight substructures to quickly screen for patterns.

Affordable

A hosted solution that is cost-efficient for academic laboratories, startups, and biopharmaceutical companies. CDD Vault comes with great in-house support and scales up as your team grows.

Built for Teams

Your whole team can mine data in a single repository avoiding redundant work and sloppy file versioning. You have full control over what data is private and what is shared with collaborators.

Multi-domain

CDD Vault provides cross-discipline tools for both chemists and biologists. Chemical structures registered by chemists and assay results captured by biologists reveal structure-activity relationships.

100% Secure

CDD Vault protects your intellectual property against accidental loss or disclosure. Trusted by major pharmaceutical companies, CDD Vault is highly secure with SSAE 16 Type II certified cloud storage.

"CDD Vault is a lifesaver. We really needed a way to capture the data we were creating and be able share and analyze it — before we were capturing data on spreadsheets."

MALCOLM KENDALL, President & CEO, Indel Therapeutics, Inc.
